

TECNOMAX

FS35 ELITE JOINTER - PLANER 350mm (14") VERSION

Technology, design, innovation and quality: 100% made in Italy. The Universal Combined Machines of the Elite series represent the TecnoMax solution for the woodworkers who are looking for a compact machine without renouncing to a high end quality product. The rapid machining changeover, the possibility to compose the machine according to your own requirement, and the same performance of the single-machining models are the main qualities which characterize this new range.

The planer unit with cast-iron supports houses an 87mm diameter cutterblock, for a perfect finishing, the pressure of the feed rollers can be adjusted according to the different types of wood. Furthermore, the feed roller on the planer has a helicoidal profile which grants a firm and constant feed. The sandblasted steel outfeed roller maintains the perfect post-processing finishing.

The Elite Serie combined machines are the ideal partner for the professional woodworkers who require a highly flexible production with the best finishing.

Technical features:

Jointer

Working width	350 mm	14"
Total length	2000 mm	78 ³ / ₄ "
Tilting surface fence	90° - 45°	
Cutterblock diam.	87 mm	3 ¹ / ₂ "
Cutterblock speed	5200 rpm	

Planer

Table dimensions	775x363 mm	30 ¹ / ₂ "
Planer feed speeds	6-12 m/min	20-40 ft/min
Min/max. thicknessing working height	3/230 mm	1/8" - 9"
Min. thicknessing working length	160 mm	6 ¹ / ₄ "
Max stock removal to cutterblock	5 mm	1/4"

Other technical specifications

Motor power: single phase motor	4,8hp 3,6kw 60Hz	
Net weight basic machine	380 kg	836 lbs
Max. Dimensions	2000x1505mm	78 ³ / ₄ "x59 ¹ / ₄ "
